

For God's continued provision for the water hand pumps as we continue to reach the unreached areas that has not water with earthly water and living water of God's word.

For God's continued provision for motorcycles for other church planters that need help with transportation. Currently, we are working with 70 church planters in different parts of Pakistan and 24 church planters in Bangladesh. So far, we have been able to help 20 church planters purchase a motorcycle to help with their ministry travels. Please pray that God will continue to provide the resources to purchase more motorcycles for the church planters.

Thank you for your love and burden for the ministries in hard to reach Muslim and Hindu areas in Pakistan and Bangladesh. Because of your valuable partnership of prayers and support, we can reach the areas that would never have heard the gospel otherwise. Thank you for your help to empower the church planters to reach the poor, oppressed and persecuted with the gospel. God bless you.

In Christ,
Barnabas Amber
